

# Revolutionary Evaporative Cooling Systems from AIRTECH

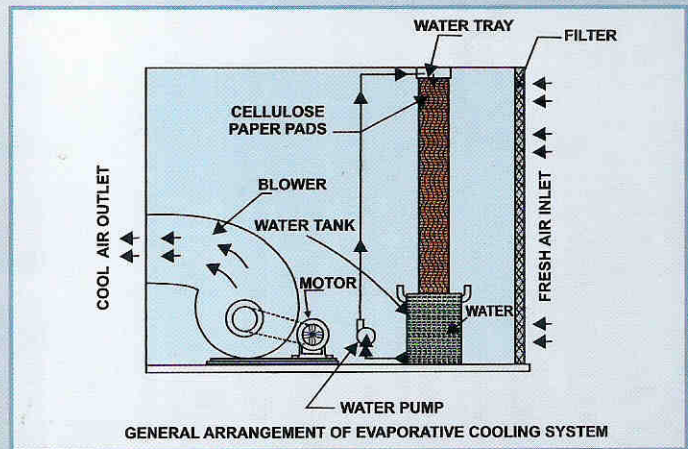

**AIRTECH ENGINEERS**

## AIRTECH - AIR WASHERS

### EVAPORATIVE COOLING SYSTEMS

**AIRTECH - AIRWASHERS** with cellulose paper pads, cross sectional, specially treated fluid media capable of absorbing and retaining water to provide the maximum cooling efficiencies. The cooling pad is cross-corrugated to maximize the mixing of air and water, and eliminate water carryover.

**AIRTECH - AIRWASHERS** are designed for compactness and rigid construction.

**CASING** - G.I. Sheet/Precoated sheet with Sandwich type panel.

**BLOWERS** - Statistically and dynamically balanced. Blowers Motor Mounted on anti vibration pad

**BEARINGS** - Self-aligning pillow type (imported)

**FILTERS** - G.I. Wiremesh filters / synthetic media.

#### AIR - AIRWASHER ARE VERY USEFUL FOR:

HOTELS - RESTAURANTS (Banquet Halls, Kitchens)

FACTORIES - (Production areas, Canteens and Plastic Industries etc.)

FOOD PROCESSING UNITS, CINEMA HALLS, GENERATOR ROOMS,

AUDITORIUMS, SHOWROOMS.

**Big Capacity  
Industrial Coolers**

MODEL	C.F.M.	RECOMMENDED HP	
		MOTOR	PUMP
ATAW - 4	4000	2 HP	1/4 HP
ATAW - 6	6000	3 HP	"
ATAW - 8	8000	5 HP	"
ATAW - 10	10000	5 HP	"
ATAW - 12	12000	7.5 HP	"
ATAW - 15	15000	7.5 HP	1/2 HP
ATAW - 18	18000	10 HP	"
ATAW - 20	20000	10 HP	"
ATAW - 25	25000	12.5 HP	"
ATAW - 30	30000	15 HP	"
ATAW - 40	40000	20 HP	3/4 HP
ATAW - 50	50000	25 HP	"

**Note:** All dimensions & specifications are subject to change without notice.

Airtech - Air washer can be supplied in various sizes, according to space.
